

Help send a clear message to Mayor Daley that we SAY ...

1) Roll Back & Stop Parking Meter Rate Hikes!

By raising the parking meter fees, the Mayor and the City Council are taking money out of working people's pockets and giving it to Morgan Stanley. Let the people decide parking meter rates, not the banks.

2) End the Privatization of the Parking Meters

Take Back the Meters! Street and Parks parking is a city service on public property, not a for-profit private business! Mayor Daley criminally handed over the city's parking meters to Wall Street giant Morgan Stanley for 75 years. The Mayor's nephew, William Daley Jr., is a Morgan Stanley executive. Morgan Stanley has raised our parking rates 400% in most places.

3) No New Parking Meters or Pay Boxes

LAZ, the company Morgan Stanley hired to run the city's parking meters, and the Chicago Park District, are planning for thousands of new meters and pay boxes—and even more rate increases.
